Consumer Outreach

Describe consumer outreach efforts in the past 12 months: The Filer has instructed its sales staff about the availability of HAC phone models and it has signs in each store advertising the availability of HAC devices. The Filer's sales staff is aware of the HAC-compliant handset issue and has been trained to respond to customer inquiries regarding HAC-compliant phones. The Filer also has wireless industry pamphlets available that customers can take home with information about the Commission's HAC requirements and HAC rating system. In addition, both hearing-impaired and non-hearing-impaired customers are permitted to test phones in the retail stores. Furthermore, the Filer has a policy which allows customers (both hearing impaired and otherwise) to test handsets and service without commitment for up to two weeks. If the customer is not satisfied, the customer may return the handset free of charge (assuming that it has not been damaged) at the end of the two week trial period.

Methodology for Functionality Levels

1) Basic Phones: entry level devices. 2) Feature Phones: devices with more advanced features and capabilities. 3) Smart Phones/PDAs: devices that run complete operating system software as a platform for application developers.
